

J. Bookwalter

Chapter 5 2012

The star of the show (as well as the most expensive), Bookwalter's 2012 Chapter 5 checks in as a blend of 80% Cabernet Sauvignon and 15% Syrah that saw 20 months in 80% new French oak. Coming from tiny yields (about 2 lbs. per plant) and bottled unfinned and unfiltered, it's a terrific Cab that offers classic currant-like fruit, graphite, lead pencil and rare steak nuances on the nose. This gives way to a full-bodied, beautifully rich, layered and pure red that will continue to shine through 2022
