

Four generations of Venetian values. In 1908 great-grandpa Giovanni Cielo fell in love with a small estate overlooking the Romeo and Juliet castles. His oldest son, Pietro, maintained the property during the war and eloquently built the reputation of the wines and family values. Three baby-boomer brothers, Giovanni, Renzo and Piergiorgio took advantage of a booming economy and made the winery well-known in their native Italy and subsequently Luca and Pierpaolo Cielo, the fourth generation, have expanded their grower base, the capacity and moved into international markets.
