### WINEMAKING

After the arrival to the winery of viura grape variety in perfect condition and after a maceration of barely 4 hours with 15% tempranillo, we obtain a bleeding by gravity, a must that will ferment for 20-25 days at a lower controlled temperature to 16°C. With this we keep the primary aromas intact. After this we obtain a wine that will be ready for its release to the market.

### TASTING NOTES

Elegant pale pink with gray tones. Soft and intense aromas of stone fruits such as peach and apricot well complemented with floral aromas that gives it fineness and freshness. Its passage through the palate is cheerful and elegant due to its roundness and balance. The aftertaste is long and fruity being a perfect wine to take at any time, with or without accompaniment. If we want to combine, it is suitable for all kinds of salads, pastas, and vegetables.

Ideal temperature 8-10°C.
