90
POINTS

Viña Real Rosado 2018

It's a fresh and light rosé with fruit and acidity. 2018 saw a late harvest that started on October 1st and produced slightly lighter, less alcoholic and more elegant and fresh wines. This goes more in the direction of a white, and in this cool, year it has a vibrant palate. The nose also has a lot of reminiscences with a white wine, such as flowers and white rather than red fruit. It's tasty, long and very easy to drink.
